InSITE®

Contemporary imaging platform

450 lbs.
weight capacity (205 kg)

A Multi-Procedural Surgery Table

Designed to support a variety of spine and imaging procedures, Insite provides excellent patient access and optimized imaging access.

Superior Surgical and Imaging Access

The **Insite® Multi-Procedural Surgery Table** is designed to give surgeons better imaging access to their patients during many types of procedures – including those requiring total access to the spine. Insite offers a radiolucent, cantilevered frame equipped with customizable positioning pads and components for prone, supine and lateral procedures. This versatile platform provides broad flexibility and ease of set-up for the OR team regardless of patient positioning or head orientation.

55" (140 cm)

Unobstructed Imaging

55 inches (140 cm) of metal free interface allows for anterior, posterior, lateral and oblique intraoperative imaging views. The open frame design offers unrestricted access with most of today's imaging devices.

Cantilever Design
For Enhanced
Access

A Multi-Procedural Surgery Table

- Prone, supine and lateral for any procedure
- One piece, carbon fiber Supine Top converts the open prone frame for supine or lateral patient positioning
- Patient head orientation can be at the cantilever or pedestal end
- Universal Side Rail Adaptor and Retractor Adaptor for mounting ancillary equipment
- Rail mounted IV pole keeps the floor clear for easy access of imaging devices

Procedures Supported

- Laminectomies
- Decompressions
- Spinal Fusions
- Osteotomies
- Posterior Cervical
- Surgical Correction of Deformities
- Vascular Surgery
- Joint Imaging
- Pain Management

Flexibility & Control

Open Frame Design Benefits

- Reduces vena cava compression
- Minimizes epidural venous bleeding
- Improves visualization at the surgical site

Supine/Lateral Patient Position Benefits

- Provides full body support for patient positioning
- Tempur-Pedic® medical pad for patient comfort
- Multiple arm board options for enhanced patient positioning

Prone Positioning Benefits

- Exceptional total spine access
- Customizable pad and component placement to meet individual patient needs
- Cervical Mounting Device permits cranial stabilization options
- 5-way articulating arm boards easily remove or pivot out of the way for patient transfer

Real-Time Intraoperative Imaging Made Easier

The Insite Surgery Table is designed to optimize interaction with today's imaging devices including BodyTom®, O-arm® and C-arm technologies.

Features

A. Leg Board Extension

- Allows patient's legs to be properly supported on open frame when head is positioned towards pedestal end
- Lightweight design and ergonomic handles allow for easy installation

D. Tempur-Pedic® Medical Pad Technology

- Incorporated in all patient surfaces
- Equalizes pressure load on patient during surgery
- Contours to patient anatomy with support
- Enhances patient comfort

B. Easy Hand Pendant Control

- Controls all table functions
- Back lit for easy viewing
- LEDs indicate table top level, floor lock status and battery status
- Return to Level Feature
- Hand Pendant connection ports located at cantilever and pedestal end

C. Proven Head & Eye Protection

- ProneView® Protective Helmet System offers head and eye protection for the prone patient while allowing anesthesia to monitor the patient
- Over 2,000,000 procedures without patient eye injury

Specifications & Components

Specifications

Total Table Length	90 in. (229 cm)
Table Top Length	85 in. (216 cm)
Pedestal Top Width	21 in. (53 cm)
Pedestal Top Length	30 in. (76 cm)
Imaging Area Length	55 in. (140 cm)
Imaging Area Width	21 in. (53 cm)
Height Range	32-42 in. (81-107 cm)
Lateral Roll (tilt)	± 20° Degrees
Trendelenburg	15° Degrees
Reverse Trendelenburg	15° Degrees
Patient Weight Capacity	450 lbs. (205 kg)

Ordering Information

- REF 6844 Insite® Surgery Table**
120V, 60Hz
- REF 6844I Insite® Surgery Table**
220-230V, 50/60Hz

Standard Components

- Hand Pendant
- Patient Safety Straps (2)
- Insite ProneView Patient Care Kit (3/cs)
- Power Cord
- Table Storage Cover

Prone Positioning

- ProneView Protective Helmet System
- Patient Head Support Plate (Face Plate)
- Tempur-Pedic Medical Chest Pad
- Contoured Tempur-Pedic Medical Hip Pads (1 pr)
- 5-Way Articulating Arm Boards (2)
- Leg Board with Tempur-Pedic Medical Pad, 1 in. (2.5 cm)
- Retractor Adaptor, Prone Frame
- Buttocks Strap
- Cervical Mount, Coupler II Main Assembly

Supine Positioning

- Supine Top, 1 in. (2.5 cm) Tempur-Pedic Medical Pad
- Universal Side Rail Adaptor, Supine Top (2)

Optional Accessories

REF	
6800-7140	Tempur-Pedic Medical, 2 in. (5 cm) Full Table Top Pad
6844PV	Insite ProneView Patient Care Kit (6/cs)
6747	Insite GentleTouch® Patient Care Kit (6/cs)
5873	Coupler II
5873-300	DORO® Radiolucent Adaptor, Coupler II
6910-1001	DORO® QR3 Aluminum Skull Clamp
6910-4004	DORO® Radiolucent Skull Clamp, Spinal Frame
6946	Positioning Pillow, Standard
6947	Positioning Pillow, Queen
6900-23	Rail Mounted IV Pole
6800-350	Rail Mounted Drape Rod
6900-51	Universal Foot Board
5356	Pivoting Armboard with Tempur-Pedic Medical 2 in. (5 cm) Pad
5857	Cross Arm Support with Tempur-Pedic Medical 1 in. (2.5 cm) Pad
5364	Lateral Armboard Unit with Tempur-Pedic Medical 2 in. (5 cm) Pads
5393	Clark Socket
5394	Aluminum Side Rail Socket
5300	Lateral Positioner Set
5301	Deluxe Lateral Positioner Set
